Acai berry grows on palm trees found in the Amazon rainforest in Brazil. Its properties are fully known to the local people. Also the rest of the world quickly found out about its properties and the beneficial effect it has on health.

Acai is rich in everything we need: vitamins A, B1, B2, B3, E and C, phosphorus, magnesium, calcium, potassium, protein, essential fatty acids, such as Omega 3, Omega 6, essential amino acids, and enzymes responsible for the proper functioning of cells.

Studies have showed that acai berry contains 33 times more antioxidants than red grapes and about 20 times more than bilberries. Furthermore, it effectively improves immunity and vitality.

There have been a great number of myths surrounding acai berry itself and dietary supplements based on the berry. The fact that the fruit has a positive influence on the whole body was confirmed scientifically. However, it's worth taking a closer look at some reports about acai berry.

Acai berry – health and beauty straight from the nature

1. Acai berry fights free radicals - it is one of the plants that are the highest in antioxidants inhibiting the formation of free radicals.
2. Acai berry helps lose weight – it boosts metabolism, improves digestion, curbs appetite and speeds up fat burning.

3. Acai berry boosts immunity – substances that acai berries contain reduce levels of harmful cholesterol and maintain higher levels of good cholesterol. Thanks to that, the fruit is an important factor in the prevention of cardiovascular diseases.
4. Acai berry improves the appearance of skin - phytosterols found in the fruits affect the outer layer of the skin, smoothing it, moisturizing and firming.
5. Acai berry improves mental alertness – it's possible due to omega-3 fatty acids, which ensure the proper functioning of the nervous system and brain.

the “yo-yo” effect

AcaiBerry900 is the most popular pill based on acai berry. Such pills sometimes include also other active substances that help burn fat. A great number of my patients told me about supplements based on acai berry, which made interested in research about the effectiveness of such products. Without this, I couldn't recommend them to my patients. After careful analysis I can say that there is one product that is really worth a try: AcaiBerry900 – an effective and safe supplement. I recommend it to everyone, who wishes to improve their life.

Dr. Aaron Gale

Recently, there has been much talk about products that are based on acai berry. So many people found them effective that I thought it may be worth giving it a try. I didn't need to go to the Brazilian rainforest to find out about the miraculous properties of the mythic fruit – AcaiBerry 900 has made me feel and look much younger!

The market has been flooded with products that are to help remove toxins and promised to produce great and immediate results. However, it's really difficult to find products that work. I don't really remember how I came across AcaiBerry 900. I only remember that they were the last pills I have tried – I haven't needed anything else since I tried them!

Customers often ask me how to cleanse the body of toxins. I always recommend the most effective cleansing that Acaiberry900, a pill based on acai berry, guarantees! The product helped me get rid of the excess pounds - I personally recommend it because I checked it myself! I know it works and is risk-free. Thousands of people can't be wrong. Neither can I!

In the past I didn't believe in supplements. I used to think that only denying food and doing intensive trainings could bring the desired effect. Fortunately, I consulted with a dietician, who told me I was wrong. He informed me about AcaiBerry 900. Today, he's my husband. Acai Berry 900 has made my life much happier :)

My lose weight story started when I reached 240 pounds and my BMI was 38.5. I think that the most difficult thing was to start believing that I could change something, I could do it myself, without any help – only me and my strong will. I tried to pull myself together a few times but always stopped being on a diet after just a few days. When I was looking for a solution to the problem, which was destroying my life and the relationship with my wife, I hit upon AcaiBerry 900. I bought the product and took it to my doctor, who said the pills are safe and don't produce any harmful side effects. To tell you the truth, I always envied people who had managed to drop weight. It really made me upset when I saw the results they had got. I was getting more and more angry at myself. Then came the day which has changed my whole life, the day I started taking AcaiBerry900.

In addition to being successful in boosting metabolism and burning body fat, AcaiBerry900 also helps cleanse the body of toxins. What's more, it makes skin look young and healthy. I recommend acaiberry 900 to all doubters, who think that slimming pills are only for women!
